Experience

Software Engineer — To The New

July 2025 – Present

Noida, India

Client: Tabcorp Digital (Australia)

Product: Digital Sportsbook Platform

- Built and maintained scalable backend services using **Node.js**, **Express.js**, **GraphQL**, and **REST APIs**, delivering production features like **SGM Builder**, **Market Selector**, and **Correct Score** across full lifecycle ownership (design to production support) for a high-traffic sports betting platform and high-scale distributed system.
- Optimized backend systems using **Redis** caching, **API Gateway**, and **microservices architecture** to improve performance and scalability.
- Implemented unit testing with **Mocha** and **Sinon** and resolved production issues to ensure stable releases.
- Collaborated with **Product Owners**, **QA**, and cross-functional teams in **Agile sprints** to deliver customer-focused solutions for major sporting events.

Recognition:

- Received the **Star Performer Award (Q3)** in the Australia & New Zealand Business Unit for consistent technical contributions and timely delivery.
- Received the **Spot Award (May 2026)** for successfully delivering FIFA World Cup features, including **SGM Builder**, **Market Selector**, and **Correct Score**.

Full Stack Web Developer Intern — Modelens

June 2024 – August 2024

Noida, India

- Built a full-stack web application using **React.js**, **Node.js**, **Express.js**, and **MongoDB**, developing responsive user interfaces and RESTful backend APIs.

Projects

MedCare – Doctor Appointment Platform

GitHub • Live Demo

Next.js, Node.js, Express.js, PostgreSQL

- Built a full-stack doctor appointment platform using **Next.js**, **Node.js**, **Express.js**, and **PostgreSQL**, featuring secure authentication, role-based access control, doctor management, and appointment booking.
- Implemented admin dashboard, implemented doctor search and slot validation, integrated the **Google Gemini API** for an AI medical chatbot, and automated email notifications.

Adaptive Learning Insights (NPM Package)

NPM

JavaScript, Node.js, NPM

- Developed and published an open-source **NPM package** for learning progress analytics, achieving **171 downloads on the first day**.

Technical Skills

Languages: JavaScript (ES6+), C++, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, GraphQL, REST APIs, Microservices

Databases: PostgreSQL, MongoDB, Redis

Tools: Git, GitHub, Postman, API Gateway, Mocha, Sinon

Core Concepts: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

Education

University School of Information, Communication and Technology (USICT)

Dwarka, New Delhi

Bachelor of Technology in Computer Science Engineering; overall CGPA: 8.65

2021 - 2025
